

Ali Sina Ibrahimi

Full Stack Developer — Next.js & React (Open to Full-time Remote)

Email: alisina902@gmail.com | GitHub: github.com/Alisina891 | Mobile: (+93) 780031643 | Location: Afghanistan

Professional Summary

Passionate Full Stack Developer with 2+ years of hands-on experience building fast, responsive, and user-centered web applications. Experienced in frontend development with Next.js/React and building integrations with backend services and databases. Seeking a full-time remote role where I can contribute to scalable web products and continue growing in backend technologies such as ASP.NET Core.

Technical Skills

Languages & Frameworks
JavaScript, React.js, Next.js, jQuery, TypeScript (familiar)

Frontend
HTML5, CSS3, Tailwind CSS

Backend / DB
Familiar: ASP.NET Core (learning), Node.js, Firebase

Databases
MySQL, MongoDB, PostgreSQL

DevOps & Tools
Git, GitHub, Vercel, Heroku, Docker (basic)

Concepts
REST APIs, CI/CD, Responsive Design, Testing basics

Work Experience

TheCodeGiant — Front-End Web Developer (Dec 2023 – Apr 2024)

- Designed and developed responsive web interfaces using Next.js, React.js and Tailwind CSS.
- Built and maintained web-based systems and CMS integrations using Strapi.
- Created and optimized databases using MySQL and MongoDB.
- Worked with CI/CD pipelines and deployed projects to Vercel and Heroku.
- Collaborated with teams using GitHub and Slack.

Selected Projects

JobShip — AI-Powered Job & Internship Platform (Live Demo: jobship-project.vercel.app)

Role: Full-stack developer. Built a job & internship matching platform with AI-assisted matching features. Frontend with Next.js and Tailwind CSS; backend integrated with ASP.NET Core and SQL Server. Firebase used for authentication and real-time features. Features: user auth, job posting, applications, search & filter, AI recommendations.

Sleeman — Content Management System (React / Node.js / MongoDB)

Content management platform for a Canadian client: role-based access control, admin dashboards, RESTful APIs, JWT authentication.

YouTube Clone — Responsive UI (Next.js / Firebase / TypeScript)

UI replication of YouTube core features for learning: responsive layouts, video listings, search, and basic interactions.

Education

Shahid Fayaz High School — High School Diploma, 2023

Faculty of Computer Science — Kabul — Undergraduate (in progress)

Available for full-time remote roles. Portfolio: <https://portfolio-ali-ibrahimi.vercel.app> | GitHub: <https://github.com/Alisina891>
